The Class of 1965 dedicates THE KILLONIAN to Mr. Alton B. Nichols, who has faithfully worked in this school system and diligently instructed the students for eighteen years.

Mr. Nichols' academic qualifications have ranked him as a teacher in both the fields of social studies and physical education. Besides his regular curriculum assignment, Mr. Nichols devotes his after school hours to coaching the basketball team.

For these many years of service, the Seniors are proud to dedicate this yearbook to you, Mr. Nichols, and to say, "Thank you."

What will this next law test be like?

Pondering over basketball tactics.

English

English with its many basic skills of reading, writing, listening, and speaking offers a challenge in all courses of studies. Because today's world calls for rapid comprehension, quick solution, and universal understanding, English is a requisite for all types of careers.

At Killingly, English is taught with such a perspective in mind . . . to prepare the engineer, the teacher, the doctor, as well as the businessman, to light another candle with his language abilities.

Grammar . . . not always alluring.

A warm discussion on Frostian wit.

College English

Ten seniors participated in the Co-operative Program in English sponsored by the University of Connecticut. This off-campus course offers an intellectual challenge to the above-average students.

They became eligible candidates for the Advanced Placement Examinations which prepare students to meet the standards of various colleges.

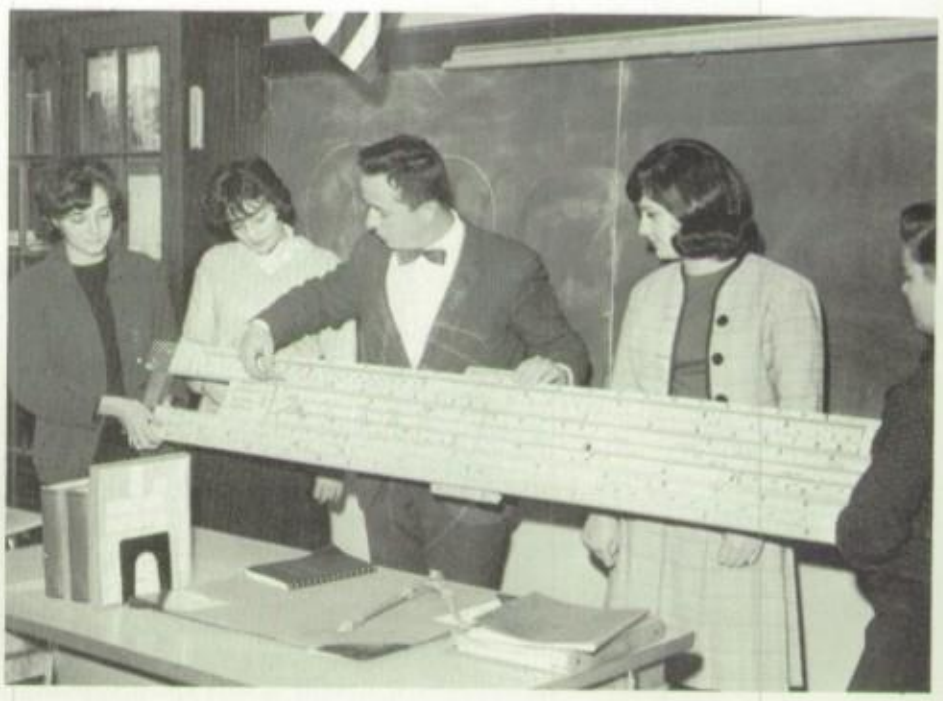
Another first for the Senior Class!

Mathematics

Mathematics with its convergent fields requires experts who can prepare students for these ever-changing forms of basic computation. This rapid transition called for the introduction of "Modern Math" into our curriculum this year.

. . . now add five.

The delta process is not difficult for those who understand.



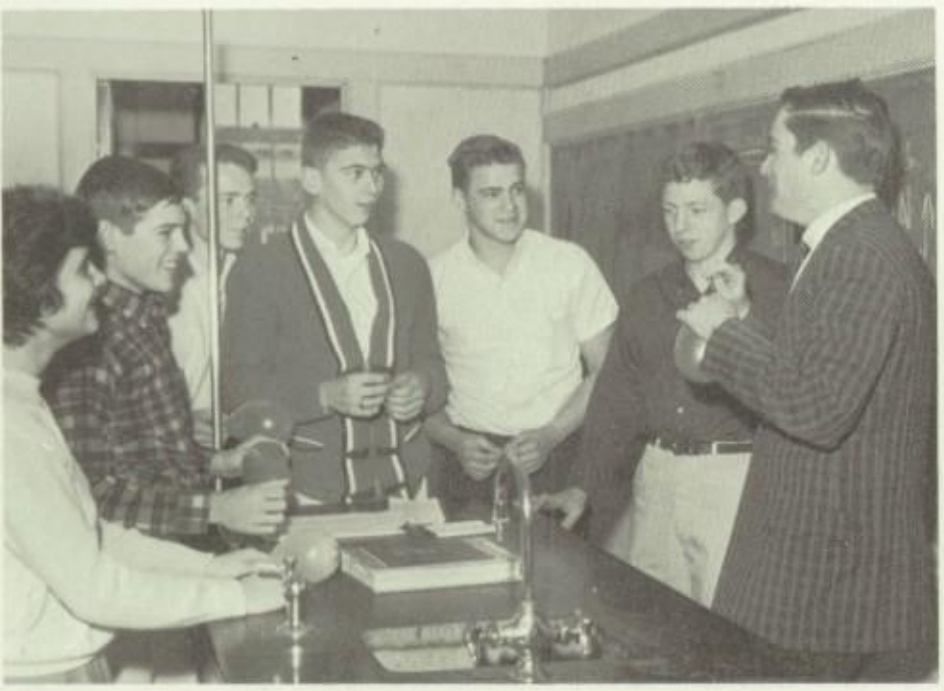
A yard of solution for an inch of problem.

Science

The expanding role of science in the so-called nuclear age requires an increasing knowledge in the fundamentals of this course of study.

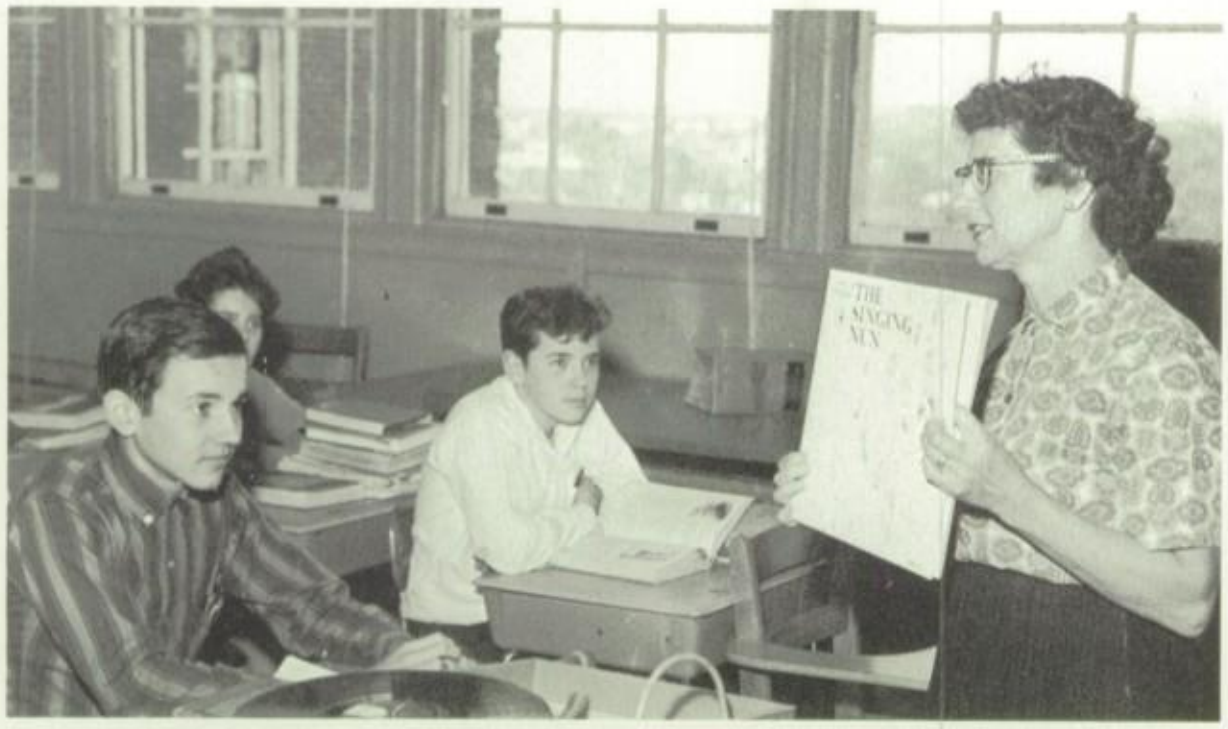
Our science department at Killingly prepares its students to work and earn a living in a technological world.

See the little paramecium!



If the pressure is "x," what is the volume?

Add a pinch of potassium chloride . . .

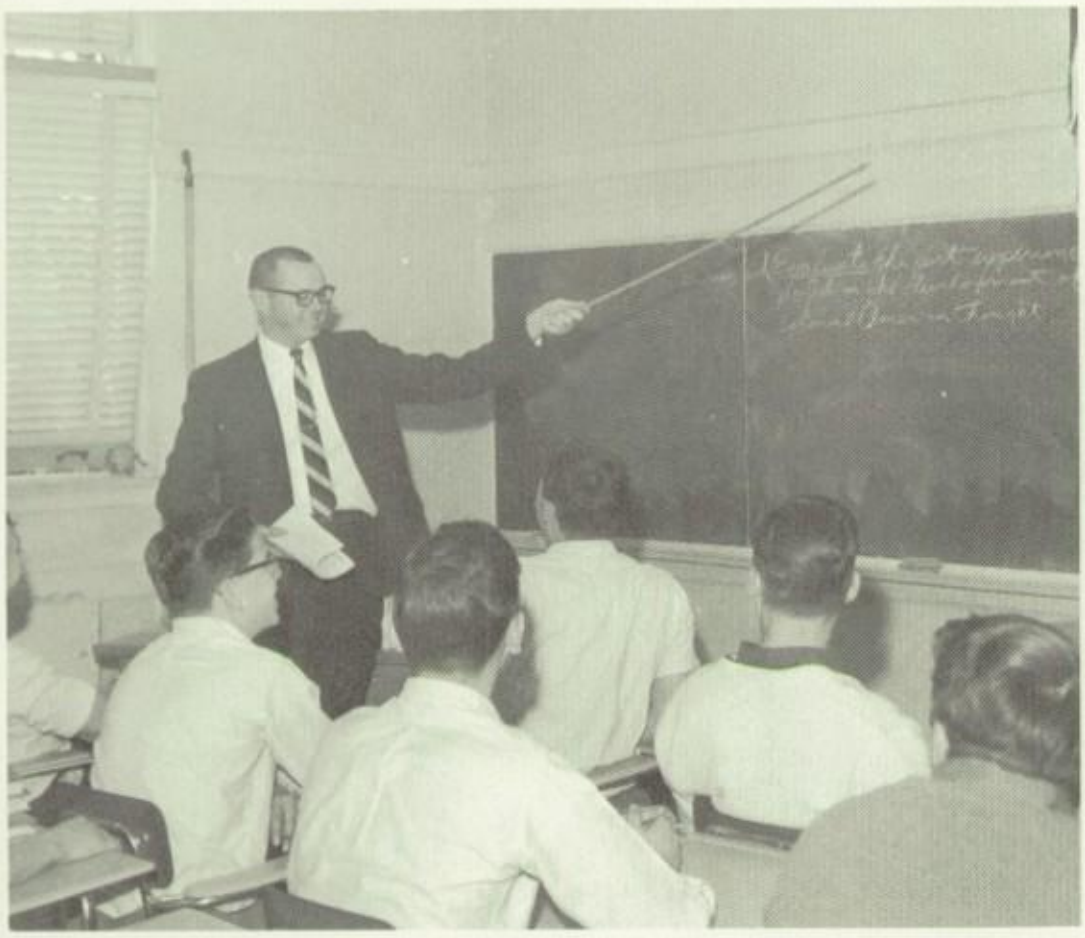


Le doux parler de France.

Languages

In today's rapidly changing world, greater need for communication and understanding is an international necessity. At Killingly High, we strive to give the student a foreign language other than his native tongue and to show him the pertinency of language background.

Comprenez-vous?



American thoughts with a blend of American humor.

Man and his social relations.

Social Studies

Social Studies requires of its students analysis of man in society and his relation to world problems. Every opportunity is offered to help each one to become appreciative of the world around him through the understanding of a historic past.

Tales of yesteryear, treasures of our American heritage.

Now, if the books don't balance . . .

Business Education

Business Education aims at promoting a keener interest, a deeper comprehension, and a greater efficiency in business skills.

At Killingly, students are well prepared to set out with security and success into various business areas.

That doesn't compute!

Faster, girls, faster!

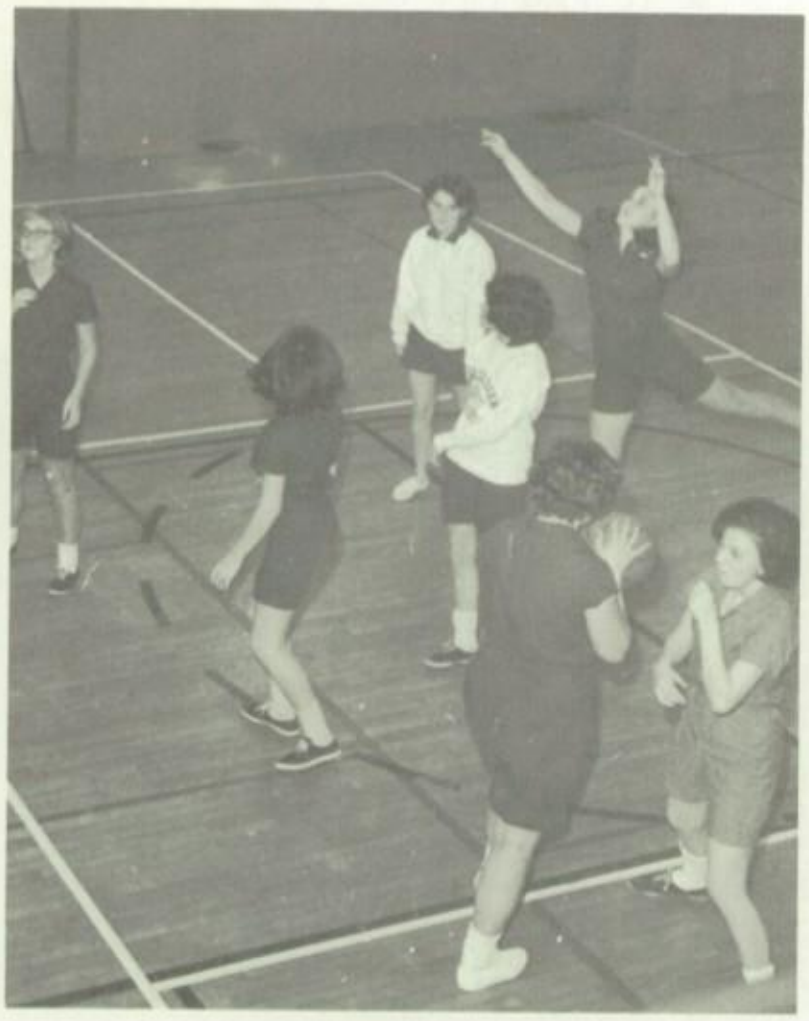
Vocational Arts

We lose more fingers this way.

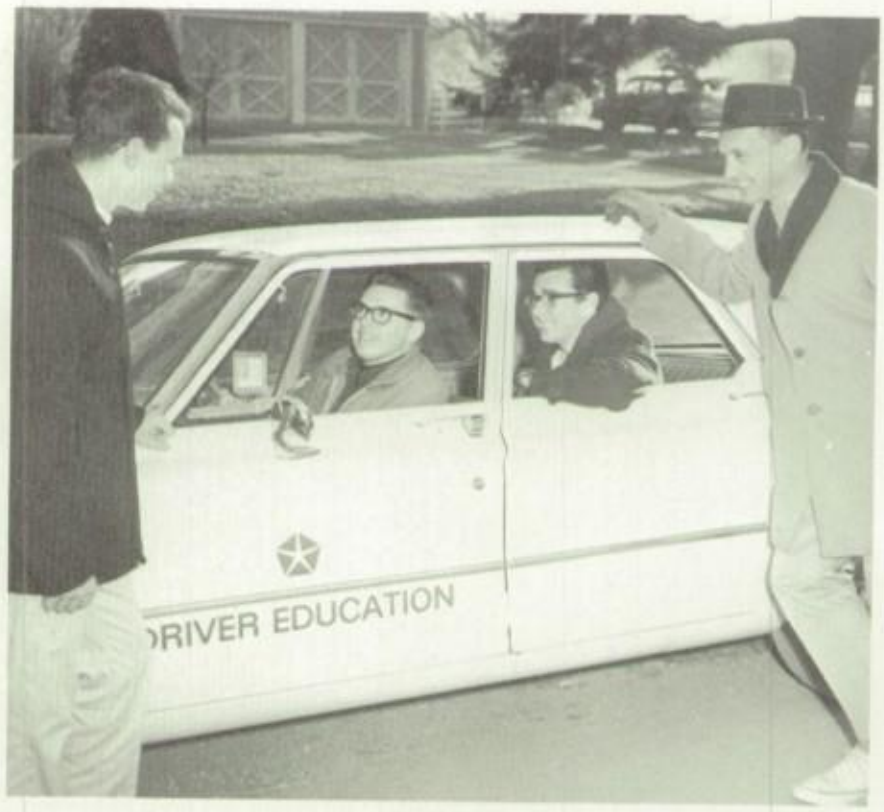
The vocational arts play an important part in the curriculum of Killingly High. In home economics, young women are prepared for the role they will play as homemakers; in shop, many useful skills in woodcraft are developed while in agriculture, young men are given the opportunity to explore the secrets of nature.

No wonder the trees are disappearing!

And this is how we make cupcakes.



Help build strong bodies eight ways.



Fear not, the brave die but once!

With a healthy body and a song in one's heart, life is pleasant in the driver's seat. This three in one combination presents a diversity of comfortable, enjoyable, and scenic experience through physical education, music, and driver's education.

Raise your voices, raise them high.

One-and-a-two-and-a . . .

Class Ode
by Linda Tuxford

The years have flown so quickly by
And now the future calls.
We see it bright, as now we come
To leave these ivied halls.
The past is our foundation;
The future we must build,
But you have laid the ground work strong;
With hope our hearts are filled.

And as we leave thee, Killingly,
And as we look to life,
The things we've learned will serve us well;
We'll brave the storm and strife.
This hallowed place of learning
We never will forget,
But think of thee with fondest thought,
These years we won't regret.

Chorus:

O, Alma Mater, Killingly,
To thee we sing today.
As we depart, you've done your part
To guide us on our way.

Although this year's 3-win-5 loss football record seems meager, it does not display the true qualities possessed by the team. The Redmen proved that a fine defensive play can be just as exciting as the offensive aspect of the game. The team, led by co-captains Dennis Mathieu and Robert Viens, projected a fine sense of sportsmanship throughout the school.

Junior Varsity

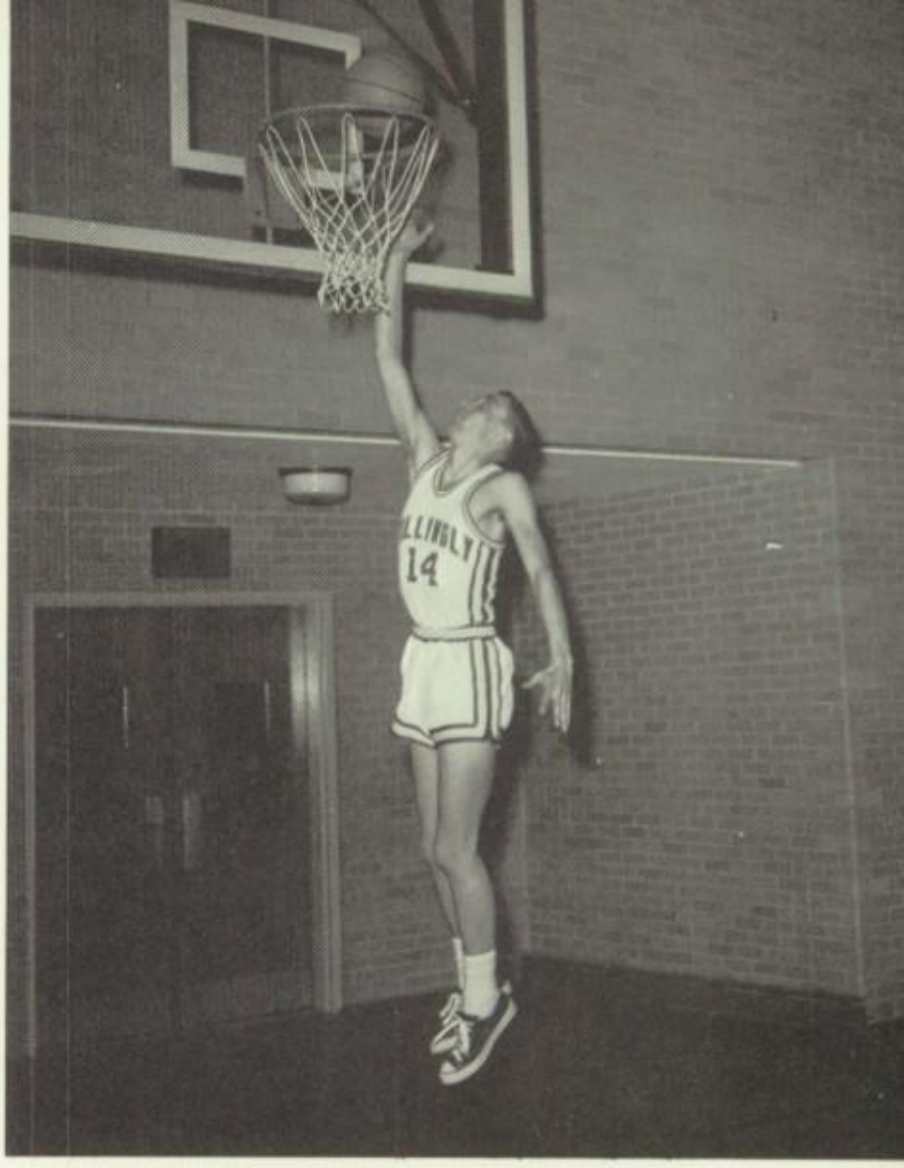
Basketball

"Thirty laps to the guy who goofs off in this game!"

The 1964-1965 season was one of rebuilding.

Under the able coaching of Mr. Alton Nichols and Mr. Armand Berthiaume, the Redmen experienced difficulty in facing their tough schedule of twenty games. The coaches made good use of a fine group of sophomores and juniors in their pursuit of victory. In spite of the majority of underclassmen, two seniors managed to turn in many excellent games. These seniors were David Socquet, the captain of the 1964-1965 squad, and Dennis Mathieu.

Paradoxically, it was both a good and a bad season. Statistics show that the year could have progressed more satisfactorily, but in practical terms, the year was very beneficial. The success of next year's team has been insured by the fine all-around play on the part of this year's team.



David Socquet, captain.

This year, with a nucleus of four lettermen, Mr. Armand Berthiaume and Mr. Weldon French developed one of the finest baseball teams in the school's history. The natural skill of the players was brought out by vigorous training, and the strong starting team was complemented by an unusually good reserve of athletes.

Nineteen-sixty-five was truly a quality year for K.H.S. baseball.

Mr. Richard Hammond, coach of the team, displayed the proper techniques of the game and showed the boys how to improve their scores. Though the team did not compete against other schools this year, the individual members had the satisfaction of sharing a sportive experience.
